

Elia Meylani Simanjuntak

Bekasi, Jawa Barat | 0821-1092-3247 | meylanielia4@gmail.com | linkedin.com/in/elia-meylani

PROFILE

Fresh graduate in Data Science from the Sumatra Institute of Technology (ITERA) with a GPA of 3.01 and internship experience at PT PLN (Persero), supporting data processing, reporting, and operational activities. Experienced in handling 200+ daily and 400,000+ monthly operational records using Microsoft Excel, with academic experience in data analysis and machine learning. Proficient in Microsoft Excel, SQL, Python, and Power BI, with strong attention to detail and a structured approach to problem-solving.

EDUCATION

Sumatra Institute of Technology (2022 - 2026) – Data Science (GPA: 3.01)
Achievement: KIP Kuliah Scholarship Recipient, Government of Indonesia

WORK EXPERIENCE

PT PLN (Persero) UID Lampung **Bandar Lampung**
Intern – Commerce & Customer Management Division **Jun 2025 – Jul 2025**

- Entered and validated 200+ operational records daily using Microsoft Excel and internal systems to ensure data accuracy and completeness for reporting and monitoring.
- Combined and organized 400,000+ monthly operational records from multiple units using Microsoft Excel to support operational performance reporting.

TRAINING & CERTIFICATION

Data Analyst Training
Yureka Education Center (YEC) | August 2026
TOEFL – Score: 613
Language Center, Sumatra Institute of Technology (ITERA) | May 2026
General Lecture on Machine Learning Algorithms and Their Applications in Industries
Data Science Center, University of Indonesia | December 2023

PROJECTS

Quick-Commerce Sales Performance Dashboard
Power BI, Microsoft Excel

- Analyzed IDR 773M+ in revenue, 9,537 transactions, and 2,538 users to evaluate sales and customer performance.
- Developed an interactive Power BI dashboard covering revenue, transactions, users, average order value, and conversion rate to monitor business performance.

Bacterial Taxonomy Classification Using Machine Learning
Python, Scikit-learn, Pandas, Incremental PCA

- Processed high-dimensional 16S rRNA gene sequence data using k-mer (k=6) feature extraction and Incremental PCA, retaining 90% cumulative explained variance.
- Compared K-Nearest Neighbors (KNN) and Naive Bayes models, achieving 99.05% and 84.81% accuracy, respectively.

Electricity Demand Forecasting

Python, SARIMA, Pandas, Matplotlib

- Analyzed historical electricity consumption data in DKI Jakarta from 2017–2022 to identify demand patterns and develop a forecasting model.
- Applied the SARIMA model and achieved a 3.98% MAPE on the evaluation data.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Data Science Student Association, Sumatra Institute of Technology

2024 – 2025

Sponsorship Staff

- Coordinated with 25+ external partners and contributed to achieving 80% of the sponsorship target.

Christian Student Fellowship, Sumatra Institute of Technology

2024 – 2025

Department Secretary

- Managed departmental administration, reviewed 5+ event proposals, and maintained documentation to support organizational activities.

Data Science Study Program & HMSD Adyatama Anniversary

March 2024 – May 2024

Head of Event Management Subdivision

- Supervised 7 committee members and coordinated event execution to ensure smooth program delivery.

SKILLS

Tools : Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Power BI, Tableau, Jupyter Notebook, Google Colab

Technical Skills : Python (Pandas, NumPy, Scikit-learn, Matplotlib), SQL, R, Data Analysis, Data Cleaning, Data Visualization, Data Reporting

Soft Skills : Communication, Teamwork, Leadership, Problem Solving, Time Management, Attention to Detail
